

## reflecta LED Light Pad L130

**Farbtemperatur**  
Color temperature

≈ 5000K (+/-270K)  
(Tageslicht/day light)

The lighting area is 125 x 100 mm big, and offers space for 4 framed small picture slides, or 2 midformat slides size 6x6 cm. The mini light pad is ideal for mobile use due to its small size.

The small LED light pad L130 is powered by six 1.5V AAA Alkaline batteries, and can be operated in almost any given situation. The color temperature of 5000K (+/- 270K) allow for lighting similar to daylight, as well as correct color replication. There is no need to worry about changing the light source, as the LEDs have a life span of approximately 10.000 hours.

### Product information
